Invest in Full Cycle PD

Make a Goal

Revisit
Goal.
Celebrate.
Recalibrate

Provide learning
on goal's topic

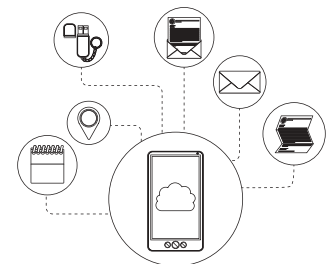

Construct a consistent action
plan to meet goals
*Coaching, Learning Labs, PLC's, Digital PD,
Book Studies*

The most successful PD is PD that has a full cycle: Goal Setting, professional learning, implementation, coaching, professional learning, reflection of goals, repeat. Say no to drive by PD and set you and your staff up for success.

Make it Last

- Train the trainer
- Video tape demonstration lessons
- Consider digital coaching
- Add on digital coursework
- Add on Book Studies
- Request email follow up/check ins

Your Professional Learning Planner

 - Zoom Live
 - Online Course
- Coaching
 - ✓ How often?
 - ✓ Individual or Team?
- Follow Through
 - ✓ Digital PD
 - ✓ PLC/Backward Planning
 - ✓ Peer or Leadership Team Walkthroughs

Have you considered

New Teachers

Whether new to the profession or new to your building/district, these teachers need additional support. Although teammates have good intentions, all teachers are already working at their max. Consider enrolling your new teachers in the "Yes You Can" support package. See details above or at www.empowerlearngrow.com/services.

Diverse Teacher Needs

Although you may have a school goal related to your action plan above, considering providing options for your teams or teachers who are ready to be stretched or who need some additional support along the way. Maybe you have teams who could benefit from guided unit planning prior to each unit? Maybe you have teams that are ready to do an online course together on guided inquiry? Consider these various groups of teachers within your building and their unique needs.

Hope is not a strategy

- John Maxwell

Let me help you build & execute a plan that moves you beyond hope to action.
